Mumbai, India

A graduate with a BA (Hons) in Finance Economics achieving a degree classification of higher 2:1 and have recently completed my post-graduate diploma in Economics and Financial Economics. I have gained the critical skills such as analytical, research, quantitative, accounting, computer, problem-solving and communication skills through my studies and work experiences. My goal is to build a career in the corporate setting, where I can get the opportunity to display my skills and develop them further by accepting challenges, which can help me to highly contribute to the organisation.
