CURRICULUM VITAE

Work Experience

Homoeopathic Physician

Worked as Homoeopathic Physician in Govt. hospital from 2017-2018. My primary responsibility was to diagnose patients, give medicines and follow up.

Public Health Internship

I had an opportunity to work closely with district public health department of Bankura during my internship and following assignments were completed during this period –

- **Secondary data analysis** – Secondary data analysis of MDA (Mass drug administration) program towards elimination of lymphatic filariasis was done at district level.
- **Evaluation of MMDP program** – Process evaluation of the MMDP program was done at district, block and sub centre level. Focus group discussion and In-depth interview was done from both beneficiary and provider end to understand the perception and gap in the program implementation.
- **Outbreak investigation** – Dengue outbreak investigation in Onda Block in Bankura district, West Bengal was done in September, 2019.

Dissertation – I have done my dissertation on the topic “ Coverage and compliance of mass drug administration program for elimination of lymphatic filariasis: A community based cross sectional study in Bankura District, West Bengal, India, 2020.” This involves taking response of pre-tested questioner for a sample of 320 individual and also taking blood samples for presence of microfilaria. The study was aimed to assess the knowledge, attitude and practice of rural population regarding lymphatic filariasis.

Workshop Attended

- Attended a workshop on the use of the inter RAI assessment system to improve the quality of mental health services – (2019 February)
- Attended online certified course on **Health Research Fundamentals**, Conducted by **National Institute of Epidemiology (I.C.M.R.)** (2019 March)
