CARRIER OBJECTIVE

   As a beginner in the field of Information Security, I strive to associate myself with an organization where I can utilize my skills in the best possible manner, which further gives me opportunity to grow in my career while contributing to the development of the organization.

PROJECT

LOGIT

   LOGIT is a simple program that fetch various log records from your machine and display it on a single window. Our program is platform independent that is it works for both Windows as well as Linux operation system. It doesn't require any installation process or additional dll files. In order to start using it, simply run the python file Logiy.py .

OSINT TOOLS GUI

   These tools will provide very important nformation for reconnaissance phase for cyber Security. GUI of these tools will make things easy for the new entrants with relatively less knowledge of programming language and platform dependencies .

TECHNICAL SKILLS

Security	Network Security, Web Application Security
System	Working in Windows and Linux, and Virtualized server environments
